

PIG Hardside Drive-Over Berm

Product Information:

This drive-over plastic and metal berm completely covers the containment liner preventing damage. The design allows traffic to flow in and out of the containment wherever the berm is installed.

- This patent-pending product is designed to completely cover the liner at the perimeter berm
- Eliminates patch and repair on the berm, which is a high percentage of the patch and repair jobs
- Interlocking design keeps the berm from shifting
- No more welding the berm in
- Symmetrical design allows fast installation of the berm system
- 4' section components are lightweight and easy to handle
- Metal cover plate is slotted for easy alignment of holes
- Versatility to do smaller sections such as driveways or the entire perimeter
- Berm components can be stacked on a skid for easy transport and storage (26 units/skid)
- Durable linear low density polyethylene (LLDPE) construction provides great UV, chemical and cold crack resistance
- Contains up to 50% recycled polyethylene

PIG® Hardside Drive-Over Berm			
Item #	Dimensions	Approx. Weight	Color
PLR7200	48" L x 30.5" W x 6" H	88 lbs.	Black / Gray
